### I.T. WINS

OLATION — EXCEED MANAGEMENT'S DEMANDS. BE AN IT HERO.

OLATION fuses relational and analytical technologies and connects with tools that are already in place: SQL Server, MySQL, SAP HANA, Oracle; Excel, Access, report writers, CRM, Outlook; web, dashboards.

OLATION ensures the control, data integrity, and security your systems require. It captures data in one place, including the "plan" data that management uses to run the business.

OLATION is about the exhilaration of contributing to the business—and being rewarded for it.

### USER WINS

OLATION — REAL-TIME BUSINESS IMPACT FROM YOUR DESKTOP

Complex business-modeling problems will take minutes, and you can continue to work in your preferred front end. Go beyond manually managing error-prone spreadsheets, and one-way dashboards. Make an impact with your solution.
